Steady 400 has handling characteristics that will challenge most sports boats.

The Steady 400 has a sophisticated modern hull that will plane at little over 10 knots, produces very little wake and has handling characteristics that will challenge most sports boats. Features such as a class leading 1000kg carrying capacity, incredible stability, self draining and safety ropes as standard make this versatile boat ideal for a range of uses from club safety boat to work boat or even a small ship's tender. Approved by Det Norske Veritas and CE accredited.

**Planes easily
Incredible stability
1000kg carrying capacity**
